# Home Learning Rationale

## DRAMA

Home learning is used to support, consolidate and extend work covered in the classroom. It will be set frequently and regularly.

### **Foundation Phase (Year 7 and 8)**

Students will receive up to 30 minutes of home learning tasks a fortnight. These tasks will support the development of their practical and written skills to help them develop as competent Drama practitioners.

### **Pathways Phase (Years 9, 10 and 11)**

Students will receive up to an hour a week. These tasks will support the development of their understanding of what it is to be an actor, director and designing. Tasks will range from exam style questions to learning lines or completing portfolio work.

### **KS5 (Years 12 and 13)**

Students will receive up to two hours a week on top of Directed Study Time. Tasks will support students in becoming critical thinkers and develop their ability to analyse the work of professional playwrights and practitioners as well as their own work. Tasks will include but, aren't limited to, research tasks, learning lines and developing ideas for stage design.
