

Travel and Tourism

The BTEC Tech Award Travel and Tourism course encourages learners to take an active interest in the world around them, and to explore the range of travel and tourism activities that may be possible in their local area and beyond. As such, there may be a number of activities that take place outside of school that broaden learners' awareness, that might not traditionally be thought of as 'homework'. As students complete Components 1 and 2 through Controlled Assessment tasks in school, it is rare for them to bring their exercise books home in Year 10, but as the course progresses they will undertake more of their own research into the various travel and tourism organisations and destinations they study in class.

All tasks will be set on Class Charts and will be accessible to all students. Curriculum materials are also regularly updated on the school's SharePoint site, so that students may keep pace with the course even if unavoidably absent from school.
